

PRAVIN KAMDI

VP of Engineering | Platform Scalability | AI-Driven Systems | Cloud-Native Architecture

kamdi.pravin@gmail.com | +91 8356919181 | Mumbai, India 421301 | LinkedIn: [linkedin.com/in/pravinkamdi](https://www.linkedin.com/in/pravinkamdi)

Senior Technology Leader with 17+ years of experience driving product engineering, platform scalability, and enterprise-grade digital systems across global organizations. Proven expertise in architecting cloud-native platforms, leading AI-driven automation, and scaling high-availability systems. Trusted executive partner to CEOs in defining technology roadmaps, building engineering excellence, and delivering deep-tech digital platforms at scale.

Skills:

Core Leadership & Engineering

- Technology Leadership
- Product Engineering
- Platform Scalability
- Technical Architecture
- Cloud-Native Systems

Data, AI & Platform Operations

- AI-Driven Systems
- Data-Driven Decision Making
- Enterprise Platforms
- DevOps Enablement

Execution & Collaboration

- Cross-Functional Leadership
- Strategic Planning
- Client & Stakeholder Communication

Technical Familiarity (Hands-on exposure)

Python | MySQL | HTML/CSS

Achievements:

- Developed and scaled the ask.CAREERS ecosystem integrating CRM, student lifecycle, analytics, and placement intelligence, streamlining the journey from enrollment to employment.
- Led the successful deployment of Google Workspace across multiple locations, optimizing user account management and device management processes.
- Designed and implemented comprehensive security protocols, including system audits and compliance checks, ensuring adherence to SOC2 and GDPR standards.
- Spearheaded AI-driven initiatives to automate internal processes, resulting in a 30% increase in operational efficiency.
- Developed the placement analytical tool in **SUPERSET** using the datapoints from our ecosystem, This helps placement team to identify right candidate for job.
- Led the successful development and deployment of **educational courses across 70% of U.S. states** for a major EduTech client, ensuring timely delivery and compliance with diverse state requirements.

Experience

Vice President – Animal Welfare | Utkarsh Global Foundation – Mumbai | 09/2024 - 07/2025

Led multi-location operations for a large NGO, focusing on technology-enabled process automation, data visibility, and operational scale across hospitals and field programs.

- Launched a new animal hospital in Nanded within 15 days, setting up operations, systems, staffing, and reporting.
- Reduced overall operational costs by 12% through AI-driven reporting, spend analysis, and budget realignment.
- Implemented Google Workspace and automated operational dashboards (AMB, OPD, ABC), reducing manual reporting effort by 40%.
- Designed and rolled out an ambulance coordination and response tracking system, improving dispatch efficiency and response times.
- Led Animal Welfare Fortnight 2025 across 3 cities, executing 20+ large-scale outreach programs.
- Built compliance readiness by training 10+ center managers on AWBI norms, audits, and recordkeeping.
- Strengthened organizational credibility and community trust through structured, data-backed outreach initiatives.

Vice President – Technology | Smart Institute PVT LTD – Mumbai | 03/2021 - 05/2024

Owned technology strategy, platform operations, and enterprise systems for a multi-location education organization, partnering closely with senior leadership to align technology with growth and efficiency goals.

- Defined and executed technology roadmaps covering platforms, security, data, and automation while operating within approved budgets.
- Led enterprise IT and digital platforms across locations, with strong ownership of system reliability, scalability, and user experience.
- Drove AI-enabled automation initiatives across CRM and internal workflows, improving lead processing speed by 20%.
- Architected and enforced security and compliance frameworks, ensuring readiness for SOC2, GDPR, and third-party audits.
- Oversaw high-stakes grant audits worth ₹20 Cr in collaboration with Grant Thornton and Deloitte for SAGE Foundation.
- Enabled cross-functional scale by standardizing workflows, adopting project management tools, and improving inter-department execution.
- Supported major business milestones including franchise launches, app rollouts, and platform upgrades.
- Used data-driven insights to support leadership decision-making and long-term planning.

Associate Vice President – Operations | Smart Institute PVT LTD – Mumbai | 07/2016 - 02/2021

Scaled operations and internal platforms by building data-centric systems, automating workflows, and aligning technology with business outcomes.

- Developed and Implemented a centralized CRM platform, automating lead-to-registration workflows and improving reporting accuracy.
- Delivered real-time conversion and performance dashboards, enabling data-backed decisions for leadership and sales teams.
- Built structured reporting cadences (weekly to yearly), improving transparency and operational governance.
- Designed and launched a Student Management & Placement Analytics module, mapping student performance and skills to job outcomes.
- Improved course completion tracking by 100% using system-driven attendance and performance monitoring.
- Delivered an analytics-driven placement matching tool, contributing to a 30% increase in successful placements.
- Developed SOPs and monitoring frameworks to improve cross-team coordination and execution consistency.
- Led development and rollout of 5+ self-learning and recruiter-facing applications at national scale.

Project Manager | Praxis Interactive Technologies - Mumbai, India | 02/2014 - 06/2016

Managed large, distributed delivery teams and enterprise client programs with a strong focus on execution discipline, risk management, and stakeholder communication.

- Led project teams of 80–100 members delivering large-scale digital learning platforms for a US-based client.
- Owned end-to-end project delivery including scope definition, timelines, budgeting, and vendor coordination.
- Built detailed execution plans and tracking mechanisms to ensure on-time, on-budget delivery.
- Implemented proactive risk identification and mitigation strategies.
- Maintained senior client relationships and ensured consistent stakeholder alignment.

Software Configuration Management Lead | Praxis Interactive Technologies - Mumbai, India | 08/2006 - 01/2013

Owned build, deployment, and release management for large-scale educational platforms distributed across the US.

- Led build and deployment operations for courses deployed across 70% of U.S. states.
- Implemented version control, baseline management, and CI-style checks using Microsoft TFS.
- Standardized deployment pipelines, reducing release errors and improving delivery consistency.
- Worked closely with cross-functional teams to align technical execution with delivery timelines.
- Supported large, distributed teams and ensured smooth platform rollouts at scale.

Senior Integrator | Lion Bridge - Mumbai, India | 01/2004 - 07/2006

Early-career technologist role focused on integration, automation, and client-facing execution.

- Promoted to Team Lead within 6 months based on performance and rapid technical upskilling.
- Worked directly with clients and third-party vendors to define integration requirements and delivery scope.
- Implemented process automation initiatives to improve execution efficiency.
